GHIN®

a USGA service

Since 1988, the Kentucky Golf Association, with cooperation from the Kentucky Section PGA, has offered GHIN®, a USGA service, to compute USGA Handicaps® for golfers at member facilities across Kentucky. Currently, over 220 facilities offer this service to Kentucky's golfers through the Kentucky Golf Association.

Each of these facilities choose membership in the Kentucky Golf Association, thereby choosing the GHIN® service to compute USGA Handicaps® for their golfers and we appreciate their support. This support is vital to the Kentucky Golf Association and its mission to promote and protect amateur golf in Kentucky, a mission since its inception in 1911.

The GHIN® service is the largest service of its kind, and currently computes USGA Handicaps® through approximately 60 regional/state golf associations, reaching over 9,700 clubs and over two million golfers.

The Kentucky Golf Association is proud to offer this service to Kentucky's golfers. If you do not have an official USGA Handicap®, we encourage you to visit www.kygolf.org for information on obtaining one through GHIN®, or call (502) 243-8295 for more information.
