

Junior Tour Volunteer Program

Have you ever wanted to give back to golf because of what the game has given to you? The Kentucky PGA Junior Tour has a Volunteer Program that allows for individuals to contribute to the growth of the game by assisting at any of our events. The success of the Kentucky PGA Junior Tour relies on the support and involvement of volunteers at each of our events. We are constantly seeking individuals that are interested in volunteering for events that take place in their part of the state. Volunteers will be assigned to assist the tour in the following areas:

- **Registration:** Volunteers will greet players in an area where they receive information about their tee time, practice facility and lunch locations, membership program gifts at first event (cap, towel, rule book, bag tag), and pedometer registration and set-up for the GolfStepz Program. Registration begins 1 hour before the first tee time and continues until all groups have started play.
- **Forecaddies:** Volunteers are placed strategically to watch shots on holes with blind landing areas. The time commitment varies based on when groups are projected to be playing the affected holes. Arrival times are often 1-3 hours after the first tee time.
- **Player Hospitality:** Volunteers assist with maintaining the player hospitality stations with fresh ice while also providing water to the players when circulating with coolers on the back of carts. The time commitment is during the play of that event.
- **Walking Scorers:** For some of our two-day events, there may be an opportunity to utilize walking scorers for live reports from the final few groups. Walking scores would need to have the ability to send text messages during play.

Parents that are attending an event but not following their child are welcome to volunteer to help as any event. If you are interested in volunteering at any of the events listed below, please send an e-mail to credle@kygolf.org with the date and time you are available to assist with one of our events. Most events are scheduled to begin early in the morning concluding in the late afternoon. If you have any questions about this program, please contact Chris Redle at Golf House Kentucky (502-243-8295, x303).
