

Dr. A.J. Powell - 1994

Dr. Powell has earned the reputation as one of the country's foremost experts on turfgrass management. He has made numerous contributions to the golf turf industry and over the years has been very active in turfgrass professional organizations such as the Kentuckiana Golf Course Superintendents Association, the Bluegrass Golf Course Superintendents Association, the Kentucky Turfgrass Council, and the Golf Course Superintendents Association of America. One of Dr. Powell's great accomplishments is in the development and releasing of a new Bermuda grass named Quickstand. Dr. Powell also developed the fall and winter nitrogen fertilization concept that has been accepted by most turf managers maintaining cool-season grasses.
