Please accept this nomination for **Director at Large** for the Kentucky Section PGA Board of Directors. My role as Director of Golf for our Kentucky State Parks helps me understand challenges across our entire state. This experience will prove helpful in understanding your role as a PGA Member and needs you have for your facility. I am specifically interested in helping the section Assistant/Apprentice Division as well as focusing on education to further your career goals. It is my intention to completely and immediately focus my energy and attention to our current and future affairs of our organization. I realize this position can be time consuming. I have spoken with my wife Shannon about this opportunity, and she supports my time I would dedicate to the section. Thank you in advance for your consideration.
