### **Part II: Applicant Essay**

I completely understand the concept of having the junior write an essay asking for the grants, and acknowledging the expenses involved in golf, but we as a family battle with letting our daughter try to deal with the adult issue of financial limitations, and don't want her to feel like she can't compete because of money. There will be plenty of time for her to deal with adult financial issues, but for now, we don't want her to feel guilty about Tournament participation. Perhaps in the future if the grants are listed as scholarships, and there is less emphasis on financial need, this would encourage more applicants to apply. I think in the past, when a player qualified for a National USGA event they automatically received financial support from Kentucky Golf.

Molly's tournament schedule has greatly expanded over the past few years from playing in local tour events, to regional events, to now a few National Championships. This year her tournament schedule should include a US Junior Am qualifier, several AJGA tournaments, The Junior World Optomist, The Big I Qualifier, The TN Women's Open, The KY Women's Open, the Women's Western Junior Amateur, the North-South Junior Am, the Bubba, the KY Women's Amateur, the KY Junior Amateur and numerous local tour events. (Some events are applications only and we don't know if she will get in). While my wife and I are employed and have good jobs, the change in tournament expenses going from local to regional and national certainly add up and any support would be greatly appreciated.
