Owen Stamper

Class of 2020

Allen County Scottsville High School

I am Owen Stamper from Scottsville, Kentucky and have a deep, unmatched love for the game of golf. I'm a three sport varsity starter and have been since freshman year in both baseball and basketball. But I have a special place in my heart for golf. I've been hitting a golf ball ever since I could stand at 8 months old. Golf has never been forced upon me by my parents like any other sports, I played if I wanted to.

My parents are two very important people in my life. They raise my two younger brothers (who also play golf, baseball, and basketball) and I with the best life I could ask for and then some. Both my Mom(Tasha) and Dad(Scott) are teachers in the Allen County School District. My mom is an elementary school librarian and my dad is a Health/P.E. teacher and is the head coach for baseball and golf.

I am a blue collar kind of guy. I've never had all the newest technology or the best equipment but I'm lucky that I have such nice and high quality equipment. I always have and will work harder than anybody doing anything. I spend my summer days at the country club from 6 am- sundown working on the little things, big things, and playing. I am fortunate to have the parents I do that take me and support me every way they can.

I am also a very hard worker in the classroom. Being a teacher's kid there isn't room for bad grades, especially when your mom was Valedictorian and a Governor's Scholar. I maintain a 4.0 GPA each semester because I know how important grades are when getting into colleges. My parents make school come before sports always with no exceptions and that will help me in college while being a student-athlete because a Division 1 sport is a full time job.

As you can see we aren't the wealthiest family in the county but my parents manage money well and that allows me to play on statewide tours like the KY Jr PGA tour. We aren't wealthy enough to play every weekend or be a part of the AJGA for national exposure and I plan on playing college golf and really want to go Division 1 and compete because I believe that my game can elevate to that level. I'm a brutally honest person to other people as well as myself, I don't like to sugar coat anything and I've evaluated my talent and I see that through hard work, a good summer, a good school season, and a little luck I can get SEC caliber schools and go on to succeed with my lifelong plan of playing on the PGA tour.

I'm applying for this grant to be able to play in tournaments with higher exposure so I can earn scholarships to college because my parents don't make a ton of money and I don't want them to not be able to do for my little brothers in college or other sports because i didn't get the scholarships I needed to. I hope you take my inquiry seriously and thank you for this opportunity that you've presented to help young golfers like me.

*I apologize for only having this past season's scores but technical difficulties wouldn't allow me to recover them. I had a tournament average of 78 with a low of 73.

Allow me to introduce my family. My husband Scott is a high school teacher and coach of golf and baseball. My name is Tasha. I am a primary school teacher librarian. We have three sons, Owen, Eli, and Simon. Owen is our oldest son. He is a driven student that works hard in the classroom to learn everything he can. He participates in school activities like Pep Club and Future Farmers of America, but we are most proud of his leadership in Fellowship of Christian Athletes and at our home church. While he also plays varsity basketball and baseball, he endeavors to continue to play golf into his college years. We are doing our best to help him achieve that goal within what we can provide, but realize that some opportunities are simply outside of our budget. Receiving this grant could allow him to play in a larger number of high profile tournaments that would allow him better exposure with college programs. We have witnessed that he will work hard in the classroom and on the course, but also know that finding a good fit at the college level is extremely important. More exposure will give him more opportunities to find that good fit. I appreciate your consideration and thank you for your time.
